## AXBLACKWOOD

NASIS: Pending

Bull Id: AXBBlackwood ARBBonjovi x Fynaks

RRP \$12.00

### Blackwood Park Blackwood

Sire: ARBBonjovi

Dam: Blackwood Park 872

AXBBlackwood is bred from the best cow family within Australia's highest genetic merit Aussie Red herd of Jan Raleigh's, fed just 1.100 tonne of supplements, his dam is super efficient at 1.28 kg MS/ kg LW. The Udders within this family line are exceptional.

- Below average statured cow with heaps of capacity
- **Super-efficient**, producing **1.28 kg ms/ kg bw** last season
- Producing 8327 lts, 348 kg B/fat and 281 kg protein in 313 days at PI 123.
- From the most consistent maternal line in Jan's herd, with every generation of the maternal family making large increases in genetic gain.
- The udders from this maternal line are all peas in a pod and are very tidy

With the sire combination of Bonjovi and FynAks behind him, this extremely high genetic merit young bull is a very exciting prospect to use in your herd

Jointly marketed by:

**Waikato Farm Gladiator**

Sire: V Foske

Dam: Bosgowan Primula 278  
Ex 91

Bosgowan Primula 278 Ex 91 at 14 years old Dam of AXBGladiator.

AXBGladiator is a half-brother of the No.1 Aussie Red sire ARBBonjovi, his dam Bosgowan Primula 278 is one of the breeds best ever bull dams. Primula 278 unfortunately died last spring at the beginning of her 13th lactation. Auzred Xb is very pleased to have the opportunity to offer this amazing bull dam's last young sire to Australian dairy farmers.

- Dam of the No.1 Aussie Red sire, ARBBONJOVI
- Very high components,
- Production to 464 kg B/F @ 5.1% and 334 kg Protein @ 3.7% in 305 days
- High positive deviations are also a feature of her son ARBBonjovi

Gladiator himself is a very impressive looking young bull, and being sired by V Foske he has every chance of also being a top proven bull of the future.
