

Welcome to Field day in Tasmania

Tuesday 19th June at 10 am

**Defence
is in
the genes!**

Come and see the impact of breeding for health traits and how it can improve farming business. The Nordic countries have been breeding for health traits since the 1980's, longer than anybody else in the world has. Our bulls have been selected to breed high producing and healthy cows in generations. They breed daughters with a natural defence against diseases. It is in the genes!

**VIKING
ON THE
FARM**

Location

Mount Patrick Estate
3 Brooklyn Road
Moltema TAS 7304

VikingGenetics will provide lunch.

Please RSVP by 12th June

Contact Mark Griffin, 0437111636 or Anna Norgren
