

Most used SRB / RDM / FAY-sires in 2009

Table 1. shows the 20 most used red sires in VikingGenetics (Sweden & Denmark) and Finland in 2009.

The figures indicate total turnaround ie. including inseminations with X-Vik sexed semen. The Finnish sire Asmo Sale was the overall most used sire with over 47 000 inseminations

Our two new top bulls R Facet and A Linné were used a lot too, although there in some periods has been a shortage of doses.
